

Gama R-32

Unidades
Multi-Split

BLUEEVOLUTION **R-32**

Aplicação multi-split

- › Valores de eficiência sazonal até **A+++** em arrefecimento e **A++** em aquecimento graças à tecnologia de ponta utilizada e à "inteligência interna" integrada nestes equipamentos
- › **Podem ligar-se até 5 unidades interiores a 1 unidade exterior multi**; todas as unidades interiores são controladas individualmente e não é necessário instalá-las em simultâneo ou na mesma divisão. Funcionam simultaneamente no mesmo modo de arrefecimento ou aquecimento
- › A seleção de um produto a R-32 permite reduzir o impacto ambiental na ordem dos 68% em comparação com o R-410A e origina diretamente um consumo de energia inferior graças à elevada eficiência energética
- › **Podem ligar-se diferentes tipos de unidades interiores**, como sejam: unidades murais, unidades de cassette para instalação no teto, unidades de condutas e unidades de chão
- › As unidades exteriores estão equipadas com um compressor "swing" e são reconhecidas pelo seu **baixo nível de ruído** e a sua **elevada eficiência energética**

2MXM40-50M(9)
